

Key trends in mobile-enabled water services: *What's working and what's next*

Leonard Kore
Market Engagement Manager
GSMA M4D Utilities
February 2019

Mobile enabled water **delivery- how can we reach?**

The GSMA Innovation Fund has awarded 15 grants since 2013 to test mobile enabled business models for water delivery

Mobile Payments

Lilongwe Water Board

Mobile services – calls, messaging, mobile applications

NextDrop

Machine-to-machine connectivity

Portland State University

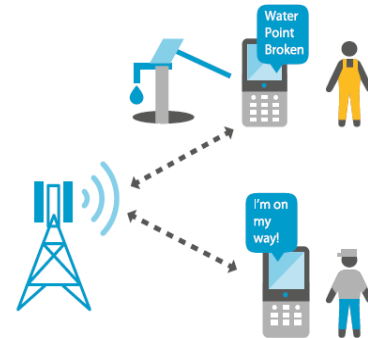

Mobile enabled water delivery- **what've we learnt so far?**

Pay-as-you-go water is picking up, but mobile money still needs a push

Digitisation is helping utilities reduce non-revenue water

Water point monitoring is key to sustainable water delivery models, but needs to be backed up with action

Thank you!
